Manchester's first World Naked Bike Ride!

Assemble 6pm at The Basement (24 Lever St, off Piccadilly Gdns). Depart 7pm

What's this all about?

Join a global protest against oil dependency, and celebrate the power and individuality of your body! Enjoy the freedom of cycling on Manchester's bike-friendly streets with less clothing than usual.

Do I have to be nude?

No! Many ride nude, but if you're shy, shorts, swimwear, crop tops, body-paint, sunglasses, or masks are all fine. No one will pressure you to take off more clothes than you want to. A perfect body is not required either... we come in all shapes and sizes.

Will I be arrested for nudity?

Highly unlikely. Nudity in itself is not illegal in England. In fact, London and Brighton rides both have advance approval from the police.

**Over 100 rides world-wide (incl Brighton, London, and York).
